LED Blinking

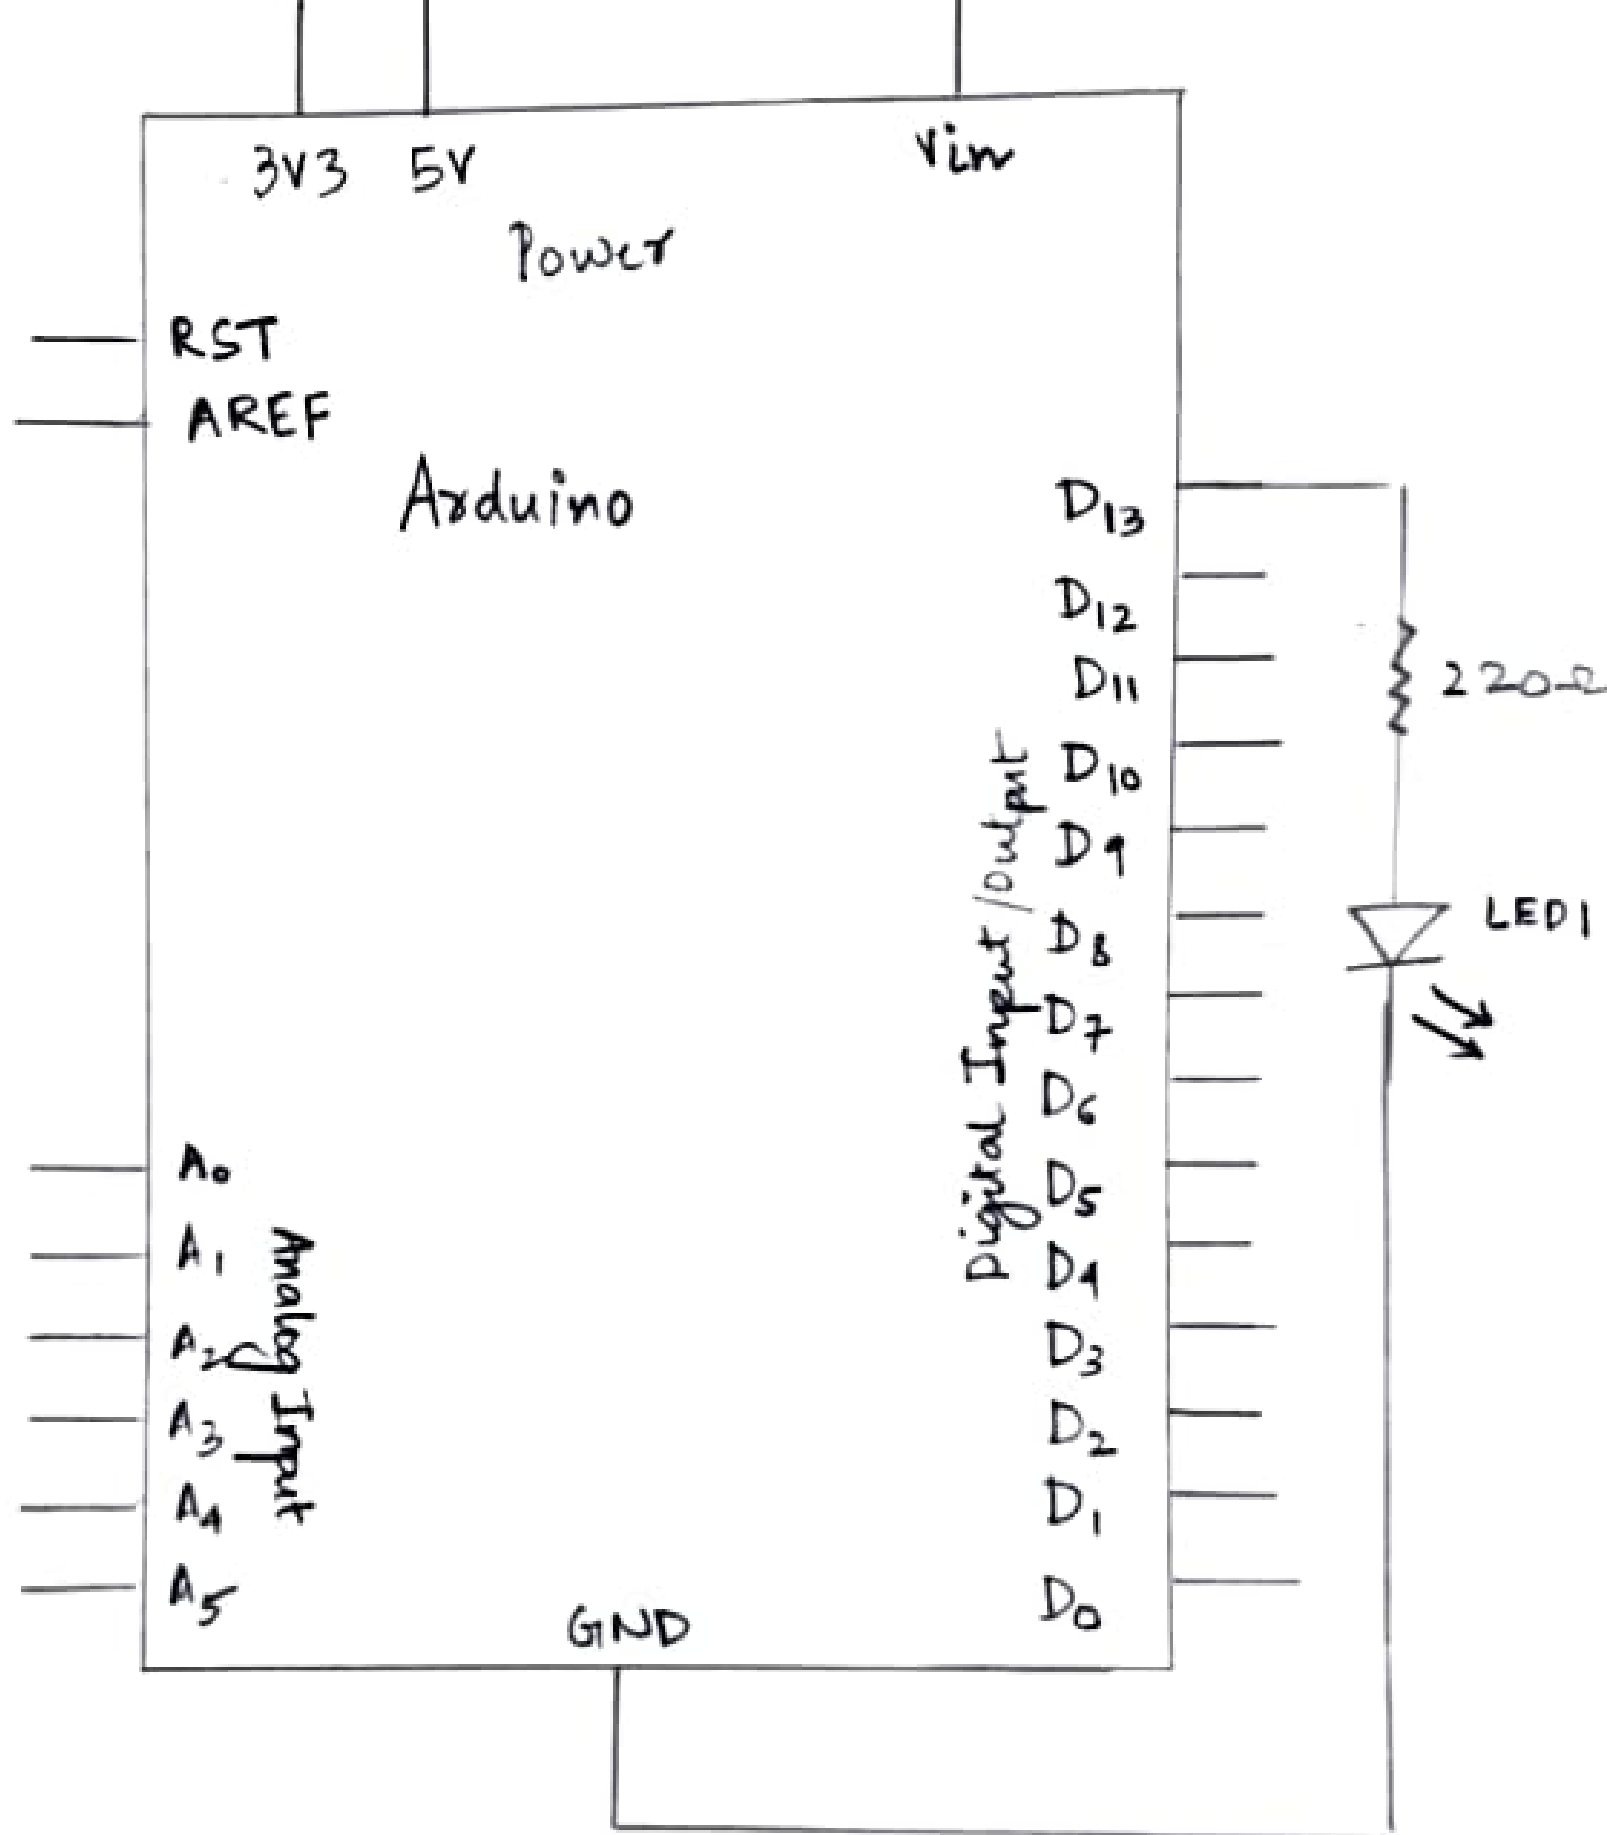

Aim:- Turn on the LED on for a second, then off for a second, repeatedly.

Hardware Required :-

- Arduino Board
- LED.

CODE :-

```
void setup()
{
    pinMode (13, OUTPUT);
}
void loop()
{
    digitalWrite (13, HIGH);
    delay (1000);
    digitalWrite (13, LOW);
    delay (1000);
}
```
